Help Chart the Library's Future : Step 1—Take Survey # 1

The purpose of this surveys and other methods we may employ during 2015 is to develop a vision of what the Liberty Lake community wants the library to be in the next 5, 10, 20 years and how that vision might be implemented.

Technology has forever changed the nature and possibilities of the thing we have been calling "the library." These great additions in our mission impact how we plan for the future : the resources we purchase, programs we facilitate, design and allocation of space to accommodate those new programs and resources, the staff we hire, and more .

The future is coming quickly and we need to know how you want us to proceed. It's important!

This survey will run during the entire month of January. It is just six questions long. Throughout 2015 we will ask library users and non-users to help us in a variety of ways to chart the library's future.

Let's begin! Take the survey at:

Bridge Building Competition Focus of Next 3 STEM-tacular Saturdays

STEM-tacular Saturdays has 12 spots open for a balsa bridge building competition at the Liberty Lake Municipal Library. This building project gives kids ages 10 - 14 a hands-on activity to design and build a model bridge that demonstrates scientific concepts of engineering, structural forces, and geometry.

Fun and challenging, this STEM project will be a three session project on the following dates: January 17th, February 7th, and February 21st from 2:30pm to 3:45pm. Those signing up must commit to all three sessions.

After the third session, there will be a competition (date to be determined) wherein we will stress test all of the bridges.

Prizes will be issued for the strongest bridges.
